RECTRIX AVIATION & AERODROME CENTERS

Press Release
August 7, 2008

Flight Options selects Rectrix as preferred provider at Sarasota, FL (SRQ)

Rectrix Aerodrome Centers is pleased to announce its designation as Flight Options preferred FBO and Aviation Service Provider at the Sarasota Bradenton International Airport (SRQ). We look forward to serving Flight Options fractional owners and customers in Sarasota, said Bill Weibrecht, Rectrix' Chief Operating Officer. "We have been serving most of the fractional programs at our Hyannis location for the past several years, so we are thrilled to have been selected by Flight Option in Sarasota."

Flight Options joins operators FlexJet by Bombardier, Sentient Flight Group, and DayJet who have already made the switch to Rectrix since starting operations last fall. When fractional and large operators designate an FBO such as Rectrix as their preferred provider, customers and owners get the most for their money, paying the lowest negotiated prices, while getting the absolute best in service and facilities.

Rectrix's new 16,000 square foot Private Air Terminal™ features three floors of custom designed and appointed spaces unlike anything else in the world.

This week Rectrix also announced that it would begin accepting most major contract fuel programs in affiliation with the Chevron Texaco Alliance program at its Sarasota location.
