

Rectrix Press Release – December 10, 2008

## Rectrix Aerodrome Sarasota opens with great reviews.

### [MORE SARASOTA PICTURES](#)

Rectrix Aerodrome Centers, Inc. at SRQ is pleased to announce the opening of its brand new Fixed Base Operation located at the Sarasota-Bradenton International Airport (SRQ) on Florida's beautiful Suncoast. Your Private Air Terminal™ in Sarasota is Rectrix's second fixed base operation joining a location in Hyannis, Massachusetts (HYA) which opened in late 2005.

The three story glass tower provides more than 15,000 square feet of unequalled passenger and aircrew lounges, first class meeting rooms, and stylish lobbies - all of which have been custom designed to meet customer and air crew requests. The entire facility has been uniquely finished with contemporary finishes and furnishings reminiscent of the finest five star hotels and country clubs.

Combined with great service and the lowest fuel prices in the market Rectrix has changed the marketplace. "This place is spectacular", according to Rick Piccolo, Sarasota's Airport Director. "There is no facility like this anywhere in Florida, and we are very happy that Rectrix elected to invest in Sarasota and bring such a great product to our corporate and leisure travelers."

Rectrix has invested nearly \$25 million dollars developing more than 150,000 square feet of large aircraft hangars, and 15 acres of concrete aircraft aprons at Sarasota. In addition to the FBO, Sarasota is also home to the Rectrix Hangarminium™ project, providing hangar ownership opportunities.

For more information regarding Rectrix Aviation and the Rectrix Aerodrome Centers in Hyannis, MA or Sarasota, FL or to arrange a private tour of our facilities please contact: Mr. William Weibrecht, Chief Operating Officer at 941.358.9600 or via email at [wweibrecht@rectrix.aero](mailto:wweibrecht@rectrix.aero) / [www.rectrix.aero](http://www.rectrix.aero)
